

NEED FOR PURCHASE OF BOAT/MOTOR/TRAILER OUT OF STATE  
Any questions – call me(Jamie) at 225-644-1512 or 806-5127

1. 2 Notarized bill of sales – 1 is used for trailer and 1 is used for boat&motor but list all on each bill of sale.
2. Must break down the sale price for boat, motor and trailer. DMV will only tax on the price of the trailer. Do not put the total price on each title. Put only the price for that item, boat & motor or trailer on the title.
3. Seller must sign his name EXACTLY as it is printed on the titles. (John S. Doe- needs to be signed that way) If he signs it wrong and DMV can't read it, it will be rejected. If he signs it wrong get an Affidavit of Correction before you leave the notary.
4. Some states do not require notary on bill of sale, so call us and tell us what state you are in and we can tell you if you will need the bill of sale notarized or not.
5. Copy of seller's driver's license to prove residency (you can take a picture with your phone and print here)
6. The boat registration and title (if any-some states don't title boats) in seller's name – this cannot be a double transfer from another person to him. Seller's name must be printed on the titles and registrations. MUST have at least the last registration in the seller's name showing he paid taxes in that state otherwise Revenue will not accept it. If he doesn't have that he must get it before you buy it.
7. Most recent registration and title for the boat trailer in seller's name.

**\*\*Just because the seller says that his state doesn't need that doesn't mean that Louisiana won't so it's always a good idea to check with us about it before you leave him. I would rather a phone call than a mistake we can't fix when you get back here. These are not my rules they are state and they won't bend.**

We don't want you to have a problem, so we give you the information to get it right the 1<sup>st</sup> time.
